

The diagram shows a central white rectangular area representing the finished product. This area is surrounded by a light blue border, which is the bleed area. A red line is drawn inside the white area, defining the cut line. A blue line is drawn further out, defining the safety line. Two green lines are drawn symmetrically on either side of the center, defining the fold lines. Arrows point from the text labels to their respective lines. The background features large, faint, grey letters spelling 'PRINTED ON THE INSIDE OF THE COVER' vertically.
